

SAFETY FIRST

REGION 4 RISK MANAGEMENT REPORT

2013 Year End Report

March 2014

Workplace Safety

Workplace safety begins and ends with you. It's your responsibility to stay current on the latest news and items to prevent workplace injuries.

"UDOT Risk Management is involved in most activities at UDOT ranging from looking after the safety of our employees, contractor employees, and the public at large. This is done through loss report analysis, managing all of the GRAMA requests to UDOT, procurement of insurance for UDOT, management of the OCIP program, and the emergency management program for UDOT. We strive to make sure that the public is taken care of and that all employees go home safely every night."

- Tim Rodriguez

Risk Program Manager

"It's the latest innovation in office safety.
When your computer crashes, an air bag is activated
so you won't bang your head in frustration."
